

Lasting Beauty™

Save time and money

- Easy installation for maintenance-free landscaping
- Stop weed growth that robs trees of nutrients and moisture
- Mow right over it for no more scattered mulch
- Made in the USA
- Available in Brown - 24" size

Lasting Beauty Tree Ring

Give your tree beds a well-maintained look 365 days a year with a Lasting Beauty Tree Ring. These 100% recycled rubber tree rings help to prevent erosion, compaction and fungal growth while conserving moisture.

Installation Instructions:

1. If necessary, use a utility knife to cut the center hole of the tree ring approximately one inch in diameter larger than the trunk of the tree.
2. Place the tree ring around the base of the tree and remove grass covered by the tree ring.
3. Remove approximately 1/2 inch of soil where the tree ring will be positioned.
4. Place the tree ring around the tree and if necessary use a landscape pin to secure the seam.
