

Rubberific Mats

The longevity of our Rubberific Mats is second only to its versatility and functionality. Made from 100% recycled rubber these durable 32" x 54" mats are two inches thick and feature a beveled edge to offer a clean and finished look. One of their primary uses of Rubberific Mats is below swings and slides in the playground where loose-fill mulch is typically kicked out by playful children. These mats stay in place, keep children safer and greatly reduce ongoing maintenance.

Installation Instructions:

- Lay mat on the ground where it will be installed and mark its position.
- Remove any grass where mat will be installed and dig a shallow trench (one inch in depth below grade of surrounding ground and the size of the mat).
- Replace mat.
- If used for playground setting, the top of the mat should be level with the surrounding mulch.
- This mat should not be secured using a landscaping pin or stake – the weight of the mat will keep it in place.

The Gold Standard of Recycled Rubber

- Multiple mats can also create a backyard walkway, patio, ideal indoor surface for a home gym, or any application where a durable, non-slip surface is needed
- Made from environmentally-friendly materials approved by the EPA
- Made in the USA
- Available in Earthtone, Redwood, Forest Green and Black
