

Burpee Natural & Organic Course Grade Horticultural Vermiculite

Burpee Natural & Organic Course Grade Horticultural Vermiculite is a lightweight amendment that improves moisture and nutrient retention. Course grade vermiculite is an ideal amendment for custom blend growing mixes for raised garden beds, container gardening and seed starting.

Great Gardens Start Here

- Lightweight amendment improves moisture & nutrient retention
- Perfect for seed starting
- Promotes faster seed and root growth
- Improves drainage and aeration in potting mixes
- Loosens heavy soil, reducing compaction for better root development
- OMRI listed for organic use

How To Use:

CREATE YOUR OWN CUSTOM MIX:

- **Raised Garden Beds**
For best results, mix one part vermiculite, one part coconut coir fiber and two parts compost.
- **Indoor & Outdoor Containers**
For a slightly denser mix for containers, mix one part vermiculite and two parts coconut coir fiber.
- **Seed Starting & Cuttings**
Mix equal parts vermiculite and coconut coir fiber as these plantings require a light soil mixture. Sphagnum peat moss can also be used in place of coconut coir fiber.

SOIL CONDITIONING:

Improve drainage and aerating in your planting areas by mixing one part vermiculite with two parts topsoil. Work into the top two inches of native soil.

NEWLY SEEDED LAWNS:

Apply seed to lawn and cover entire area with a ¼ inch of vermiculite. Water in with a fine spray. The vermiculite will speed germination and increase the number of seeds that germinate by maintaining uniform moisture levels on the soil surface.

BULB STORAGE:

Place bulbs in a container and pour vermiculite around them. Be careful not to pack or compress while storing bulbs. Store bulbs in a cool (45 to 55 degree Fahrenheit) dark and dry area.

THE BURPEE GUARANTEE

If you are dissatisfied with your purchase of this product, let us know within 3 months from date of purchase and we will refund your money. Simply send proof of purchase off the package and original register receipt to: IMC, P. O. Box 31366, Des Peres, MO 63131.
