Burpee Natural & Organic Raised Garden + Container Mix

Burpee Natural & Organic Raised Garden + Container Mix is enriched with Burpee plant food for vibrant flowers and delicious vegetables and herbs. Blended with compost, perlite and coconut coir, a sustainable and renewable resource that helps maintain moisture between waterings.

How To Use:

RAISED GARDEN BEDS:

A raised garden bed offers perfect drainage, protection from pests, and easy access to crops. Beds are typically built out of untreated wood, but blocks, pavers and stone offer good alternatives.

1. Determine size of raised garden bed and select material.
2. Dig up any existing grass from the proposed site and lay a weed fabric inside the raised garden bed.
3. Fill the raised garden bed with Burpee Growing Mix 1" from top of structure.
4. Plant according to directions on plant tag.

For best results, begin a regular feeding program with Burpee Plant Foods 2 weeks after planting.

CONTAINER GARDENING:

1. Fill container about 1/3 full with Burpee Growing Mix and pat down gently.
2. Loosen the plant's root ball and place it in the center of the container.
3. Fill around the root ball, patting carefully but firmly. Be sure to leave about one inch to the rim of container.
4. Water properly and allow the plant to drain. If soil is damp to the touch, additional watering is not needed.

For best results, begin a regular feeding program with Burpee Plant Foods 2 weeks after planting. Remember all container plants should be repotted annually with fresh growing mix.

THE BURPEE GUARANTEE

If you are dissatisfied with your purchase of this product, let us know within 3 months from date of purchase and we will refund your money. Simply send proof of purchase off the package and original register receipt to: IMC, P. O. Box 31366, Des Peres, MO 63131.
