

# RUBBER GENERATOR PAD

**ELEVATE YOUR CUSTOMER'S INVESTMENT!**  
**VERSATILE GENERATOR PADS CRAFTED FROM RECYCLED TIRES**

## DURABLE & LIGHTWEIGHT

- Crafted from recycled end-of-use tires
- Weighs only 84 lbs—easily handled by one person
- Withstands over 1,200 lbs without cracking or breaking

## QUICK, HASSLE-FREE INSTALLATION

- **Easy Stack:**  
Two pads (2" each) stack to create a 4" total height
- **Secure Mounting:**  
Attach generator with three 7" lag screws + washers  
(Installation hardware is not included)
- **Shorter Install Time:**  
One-person setup reduces labor costs

## BUILT TO LAST

- Resists chipping, cracking, or deforming
- Black color that won't fade over time
- Meets NFPA 37, Fire Safety Requirements  
for Permanently Installed Engines
- Limited Lifetime Warranty

## VERSATILE DESIGN

- Designed for 10-28kw air cooled generators of all brands within the 54" x 32" x 2" footprint, such as Generac, Kohler, and Champion
- Stack more pads for additional height or cut in half for installation on slopes
- Ideal for residential and commercial use

## COST-EFFECTIVE SHIPPING & STORAGE

- Lightweight and easily stackable
- Packed 20 pads per pallet, \$95/unit (FOB)
- Ships from Godfrey, Illinois

## SPECIFICATIONS

- Dimensions: 54" x 32" x 2"
- Weight: 84 lbs per pad
- Model#: GPMAT32x54BK
